

Treace Medical to Host Investor Day Highlighting New Products on September 3, 2025

August 7, 2025

PONTE VEDRA, Fla., Aug. 07, 2025 (GLOBE NEWSWIRE) -- Treace Medical Concepts, Inc. ("Treace" or the "Company") (NasdaqGS: TMCI), a medical technology company driving a fundamental shift in the surgical treatment of bunions and related midfoot deformities, today announced plans to host an investor day at 9:00 am E.T. on September 3, 2025, in New York, New York. The event will include presentations by members of management and experienced surgeon users, highlighting their experiences with the expanded technology portfolio.

Investors interested in attending the event may request to register by contacting investor relations [here](#), by August 27, 2025. A live webcast and replay of the Investor Day will be available on the Company's investors relations website at <https://investors.treace.com/>.

Internet Posting of Information

Treace routinely posts information that may be important to investors in the "Investor Relations" section of its website at www.treace.com. The Company encourages investors and potential investors to consult the Treace website regularly for important information about Treace.

About Treace Medical Concepts

Treace Medical Concepts, Inc. is a medical technology company with the goal of advancing the standard of care for the surgical management of bunion and related midfoot deformities. Bunions are complex 3-dimensional deformities that originate from an unstable joint in the middle of the foot and affect approximately 65 million Americans, of which Treace estimates 1.1 million are annual surgical candidates. Treace has pioneered and patented the Lapiplasty® 3D Bunion Correction® System – a combination of instruments, implants, and surgical methods designed to surgically correct all three planes of the bunion deformity and secure the unstable joint, addressing the root cause of the bunion and helping patients get back to their active lifestyles. To further support the needs of bunion surgeons and address the four classes of bunions, Treace introduced its Adductoplasty® Midfoot Correction System, designed for reproducible surgical correction of midfoot deformities, the SpeedMTP™ Rapid Compression Implant for addressing bunions through big toe joint fusions, and two systems for minimally invasive osteotomy surgeries: the Nanoplasty™ 3D Minimally Invasive Bunion Correction System and the Percuplasty™ Percutaneous 3D Bunion Correction System. Treace continues to expand its footprint in the foot and ankle market with the introduction of its SpeedPlate® Rapid Compression Implants, an innovative fixation platform with broad versatility across Lapiplasty®, Adductoplasty® and SpeedMTP™ procedures, as well as other common bone fusion procedures of the foot.
