

#### Treace Medical Concepts Reports First Quarter 2021 Financial Results

May 25, 2021

PONTE VEDRA, Fla., May 25, 2021 (GLOBE NEWSWIRE) -- Treace Medical Concepts, Inc. ("Treace" or the "Company") (NasdaqGS: TMCI), a commercial-stage orthopaedic medical device company driving a paradigm shift in the surgical treatment of Hallux Valgus (commonly known as bunions), today reported financial results for the first quarter ended March 31, 2021.

#### Recent Highlights:

- Revenue of \$18.7 million, a 66% increase over the same period last year
- Gross margin of 82.2%, an increase of 340 basis points from the same period last year
- Completed initial public offering with \$107.1 million in proceeds, net of underwriting discounts, commissions and offering costs
- Interim results from ALIGN3D™ clinical study demonstrating positive radiographic and patient-reported outcomes starting at 6 weeks and maintained at 12 months

"We are pleased to report a solid start to 2021, with strength led by our expanding direct sales channel and surgeon and patient education initiatives, particularly as we exited the first quarter," said John T. Treace, CEO, Founder and Board Member of Treace. "As we navigate toward a potential return to normalcy through 2021, we believe we are well positioned to drive continued market penetration of our Lapiplasty® system leveraging a comprehensive set of tools and capabilities that include a body of clinical evidence demonstrating consistent, reliable correction and low recurrence rates."

#### First Quarter 2021 Financial Results

Revenue for the first quarter of 2021 was \$18.7 million, representing an increase of 66.2% compared to \$11.3 million in the first quarter of 2020. The increase was driven by an increased number of Lapiplasty Procedure Kits sold and an expanded customer base.

Gross profit for the first quarter of 2021 was \$15.4 million, compared to a gross profit of \$8.9 million in the first quarter of 2020. Gross margin increased to 82.2% in the first quarter of 2021, compared to 78.8% in the first quarter of 2020. Gross margin expansion was the result of increased number of Lapiplasty® Procedure Kits sold and a higher average blended ASP.

Total operating expenses were \$16.8 million in the first quarter of 2021, including sales and marketing (S&M) expenses of \$12.1 million, research and development (R&D) expenses of \$1.9 million, and general and administrative expenses (G&A) expenses of \$2.8 million. This compared to total operating expenses of \$10.1 million, including S&M expenses of \$7.3 million, R&D expenses of \$1.4 million, and G&A expenses of \$1.3 million in the first quarter of 2020.

First quarter net loss was (\$2.6) million, or (\$0.07) per share, compared to net loss of (\$1.8) million, or (\$0.05) per share, for the same period of 2020.

Cash and cash equivalents were \$16.2 million as of March 31, 2021. This excludes cash proceeds of \$118.3 million before underwriting discounts, commissions and offering costs from the Company's initial public offering that closed in April 2021.

#### **Financial Outlook**

Treace Medical Concepts projects revenue for the full year 2021 to range from \$87 million to \$92 million, which represents approximately 52% to 60% growth over the Company's fiscal year 2020 revenue.

#### **Webcast and Conference Call Details**

Treace Medical Concepts will host a conference call today, May 25, 2021, at 4:30 p.m. ET to discuss its first quarter 2021 financial results. The dial-in numbers are (833) 730-3977 for domestic callers or (720) 405-2122 for international callers, followed by Conference ID: 1157038. The live webcast of the conference call will be available on the Investor Relations section of the Company's website at <a href="https://investors.treace.com/">https://investors.treace.com/</a>. The webcast will be archived on the website following the completion of the call.

#### **Use of Non-GAAP Financial Measures**

To supplement the financial results presented in accordance with GAAP, this earnings release presents Adjusted EBITDA, which the Company defines as net loss before depreciation and amortization expense, stock-based compensation expense and interest income/expense. Adjusted EBITDA is being presented in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Management uses Adjusted EBITDA to evaluate the Company's operating performance and trends, as well as for making planning decisions. The Company believes that Adjusted EBITDA helps to identify underlying trends in the Company's business that could otherwise be masked by the effect of the expenses and other items that it excludes in Adjusted EBITDA. Accordingly, the Company believes Adjusted EBITDA provides useful information to investors and others in understanding and evaluating the Company's operating results, enhancing the overall understanding of its past performance and future prospects, and allows for greater transparency with respect to the key financial metrics used by the Company's management in their financial and operational decision-making. The Company also presents Adjusted EBITDA because it believes investors, analysts and rating agencies consider it a useful metric in measuring the Company's performance against other companies and its ability to meet its debt service obligations.

There are limitations related to the use of non-GAAP financial measures such as Adjusted EBITDA because they are not prepared in accordance with GAAP, may exclude significant expenses required by GAAP to be recognized in the Company's financial statements, and may not be comparable to non-GAAP financial measures used by other companies. The Company encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Reconciliations between GAAP and non-GAAP results are presented below.

#### **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are forward-looking statements, including, but not limited to the Company's expectations that the market will continue to recover as 2021 unfolds; the Company's belief that it is well positioned to drive continued market penetration of the Lapiplasty® system; and the Company's estimated revenue for the remainder of 2021. Forward-looking statements are based on management's current assumptions and expectations of future events and trends, which affect or may affect the Company's business, strategy, operations or financial performance, and actual results and other events may differ materially from those expressed or implied in such statements due to numerous risks and uncertainties. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Factors that could cause actual results or other events to differ materially from those contemplated in this press release can be found in the Risk Factors section of Treace's public filings with the Securities and Exchange Commission (SEC), including in the final prospectus filed with the SEC on April 26, 2021 in connection with Treace's initial public offering. Because forward-looking statements are inherently subject to risks and uncertainties, you should not rely on these forward-looking statements as predictions of future events. These forward-looking statements speak only as of their date and, except to the extent required by law, the Company undertakes no obligation to update these statements, whether as a result of any new information, future developments or otherwise. The Company's results for the quarter ended March 31, 2021 are not necessarily indicative of our operating results for any future periods.

#### **About Treace Medical Concepts**

Treace Medical Concepts is a commercial-stage orthopaedic medical device company with the goal of advancing the standard of care for the surgical management of bunion deformities. Bunions are complex 3-dimensional deformities that originate from an unstable joint in the middle of the foot. Treace has pioneered and patented the Lapiplasty® 3D Bunion Correction™ system - a combination of instruments, implants, and surgical methods designed to correct all 3 planes of the bunion deformity and secure the unstable joint, addressing the root cause of the bunion and getting patients back to their active lives quickly.

To learn more about Lapiplasty® 3D Bunion Correction™, or find a Lapiplasty® surgeon in your area, please visit: <a href="www.AlignMyToe.com">www.AlignMyToe.com</a> or <a href="www.Lapiplasty.com">www.Lapiplasty.com</a>.
